Northwest Minnesota offers opportunities to find quiet wilderness, fun sporting events, exciting entertainment and the bright lights of regional trade centers within a reasonable travel distance. You can plan a weekend of relaxed camping in a small town setting and yet have access to some of the Midwest's best shopping areas.

Wildlife preserves with moose, deer and elk are only a few miles from the finest golf courses around. The natural terrain includes lakes, rivers, forest, prairie and everything in between. You can find crowds of people in the more popular spots but there are also places where peaceful solitude is the only description.

Currently 6,000 acres with ongoing acquisition of adjoining land in order to complete the WMA and flood control project. Roseau Lake was drained in the early 1900's. Prior to drainage the area had a rich history of wildlife use and public recreation use. The lake remains drained yet today except during wet periods when the Roseau River overflows its banks and re-floods the original lake basin. Wildlife use of the area fluctuates dramatically with the water levels. It can be a good area to observe shorebirds and other wetland related wildlife during migration some years.

Special Attractions

AgassizAudubon Society

27391 190th St. NW

Experience wildlife at the beach along Glacial Lake Agassiz. To the west are the Tallgrass Prairies - to the east, the Aspen Parklands. The Audubon Center has them both. It's a great place to spot magpies & kingfishers, warblers and owls, as well as the occasional otter, moose, bear and wolf. Bring a picnic lunch and spend the day. Experience the quiet serenity of the pine groves, prairie vistas and aspen woodlands. There's plenty to see. While you're here, take a walk across the street to the Agassiz Valley flood control impoundment - one of the best birding locations in NW MN. Look for white pelicans, common loons, sandhill cranes, great blue herons, shorebirds and waterfowl. New in 2015, the Agassiz Valley Residential Pollinator Garden will be available for you to visit, which showcases natural habitat plants, forbes and trees. Agassiz Valley is closed during the winter months.

Multi-purpose Trails

Major Route — **Pine to Prairie Birding Trail**

1-800-433-1888

http://www.mnbirdtrail.com/

Throughout all of region

43 stops available. Kittson county part of trail goes through the Twin Lakes Wildlife Area.

A unique collection of habitats in Northwestern Minnesota which provide homes for a tremendous variety of birds. Pine forests, deciduous woodlands, native tallgrass prairie, aspen parkland, sand dunes (remnants of Glacial Lake Agassiz), calcareous fens, bogs, marshes, large and small lakes and rivers make up the transition zone that offers over 275 species of birds. Most of the sites are on public land or private reserves open to the public. Map of area is included on the website or call 800-328-4455 for a birding guide.

Major Route — **Red River/Pembina Oxcart Trail**

The trail does not follow current highways but runs diagonally from Pembina, ND to Mahnomen then to St. Paul.

This historic trail can still be seen throughout much of the region. This trail was used by the first settlers as a trading corridor connecting St. Paul to rural Minnesota.

Major Route — **Waters of the Dancing Sky Scenic Byway**

http://watersofdancingsky.com/

Drive the scenic byway from International Falls to North Dakota.

Named for the Northern Lights that can often be seen dancing in the sky, this is Minnesota's northernmost byway. This breathtaking route traverses 191 miles along Minnesota Trunk Highway 11 through lakes, forests, farmland and several cities/towns.

Major Routes — **King of Trails Scenic Byway**

www.highway75.com

Drive U.S. Highway 75 the King of Trails from Canada to Mexico.

This trail was previously utilized by Native Americans/settlers and was designated by the State of Minnesota as "The Historic King of Trails" in 2001. Efforts include an annual marketplace day where communities along Hwy. 75 invite vendors to openly market their goods at select locations.

Major Routes — **Minnesota Wildflower Route**

Wildflower route along Hwy 11 from Greenbush to Baudette. The route contains up to an estimated 800,000 showy pink ladyslippers, the protected state flower of Minnesota.

An annual "Wildflower Route Celebration" is related to this route.

Major Routes — **MOM's Way**

MOM's Way takes you on a 400 mile route from Winnipeg to Thunder Bay traveling through Minnesota, Ontario and Manitoba.

Discover a route less taken & experience spectacular scenery perfect for touring. MOM's Way follows the famous route of the first fur traders on the original east-west highway.

Major Routes — **Prairie Passage Trail**

This trail follows Hwy 75 to Crookston then goes down Hwy 102 to connect with Hwy 32 in Fertile traveling south.

This trail represents remnants of native grasses in six states and Canada. Native plantings are encouraged to restore the original landscape. The Prairie Passage has been described as a "window to the past." and "a place to get a sense of what this part of Minnesota used to be like."

Major Routes — **Red Lake River Corridor**

www.redlakerivercorridor.org

Because of its unique setting and character, the Red Lake River is one of a few officially designated DNR canoe and small boat routes in the region.

The Red Lake River originates in the marshes of the Lower Red Lake and meanders west almost 200 miles before emptying into the Red River at East Grand Forks. It passes through three continental biomes, farmland, prairie, riparian forests and bluffs. Fish populations include channel catfish, northern pike and walleye.

Campsites are designated along the route. Public rest areas are available along the route to picnic, rest and explore.

Major Routes — **Red River Corridor**

http://www.dnr.state.mn.us/watertrails/index.html

The Red River of the North is designated as an official canoe and boating route. The designated portion of the river is 394 miles long from Breckenridge to the US/Canadian border.

The Red River meanders 550 miles northward from it's source in Breckenridge, MN to Lake Winnipeg in Canada. The Red River is known for it's catfish and walleye populations. The Red River flows through the Red River Valley, one of the world's flattest landscapes and a remnant of glacial Lake Agassiz.

Access sites and camping areas are limited. They may be too far apart for certain trip lengths.

Ada — **Ada Area Recreation Trail**

218-784-5520

6 miles NW of Roseau on County Road 123

Snowmobiling legal on this WMA. No groomed trails.

Currently 6,000 acres with ongoing acquisition of adjoining land in order to complete the WMA and flood control project. Roseau Lake was drained in the early 1900's. Prior to drainage the area had a rich history of wildlife use and public recreation use. The lake remains drained yet today except during wet periods when the Roseau River overflows its banks and re-floods the original lake basin. Wildlife use of the area fluctuates dramatically with the water levels. It can be a good area to observe shorebirds and other wetland related wildlife during migration some years.

Experience wildlife at the beach along Glacial Lake Agassiz. To the west are the Tallgrass Prairies - to the east, the Aspen Parklands. The Audubon Center has them both. It's a great place to spot magpies & kingfishers, warblers and owls, as well as the occasional otter, moose, bear and wolf. Bring a picnic lunch and spend the day. Experience the quiet serenity of the pine groves, prairie vistas and aspen woodlands. There's plenty to see. While you're here, take a walk across the street to the Agassiz Valley flood control impoundment - one of the best birding locations in NW MN. Look for white pelicans, common loons, sandhill cranes, great blue herons, shorebirds and waterfowl. New in 2015, the Agassiz Valley Residential Pollinator Garden will be available for you to visit, which showcases natural habitat plants, forbes and trees. Agassiz Valley is closed during the winter months.
